NEWS FROM ALL POINTS.

(By Special Telegraph.)

Horrible Holocaust.

QU'APPELLE, May 9.—One of the most horrible sights ever witnessed was the burning of the Longue Pointe asylum, at Montreal, on Wednesday. The building is now a complete mass of ruins. It is not known what number of the inmates were lost, but it is thought that nearly 200 have perished. The only names of the dead obtainable are, Sisters Gravel, Bantellier, Lumine, McNicholls and Lahare, of the Sacred Heart convent.

Dead.

Adam Thom, L.L.D., first Recorder of Rupert's Land and father of the Bench and Bar of Western Canada, is dead.

Scintillating Championship.

O'Connor and Stansbury row in Australia on the 23rd of June for the championship of the world.

Destructive Fire.

The Singer Sewing Machine works, New Jersey, were totally destroyed by fire; lost several million.

Fire in a Colliery.

Fire broke out on Thursday in the Abraham Colliery, near Leigh, Lancashire, and 300 miners are entombed.

Will Rebuild.

Sister Theresa has assumed the charge of affairs of the Longue Pointe asylum. She will rebuild the asylum on the most modern improved plans.

Important Deputation.

OTTAWA, May 9.—A deputation of the members waited on Sir John, and Sir A. Caron Minister of Militia, on behalf of fifty rifle teams throughout the Dominion, urging a grant for a Dominion rifle match. Among them was one from Regina, one from the N.W.M.P., Prince Albert, and the Saskatchewan Provincial Rifle Association, Prince Albert. Each team that enters is to pay ten dollars; competition to take place on the same day all over the Dominion and scores to be telegraphed to Toronto; each team firing 150 rounds. The Government are asked to supply the ammunition. Mr. Caron promised to consider it.

Railway subsidies.

The railway subsidies are to be brought up to-day.

To be withdrawn.

It is currently reported since the debate on Wednesday that the N. W. bill will be withdrawn.

Thrown out.

The Combines bill was thrown out by the Senate. The vote was seven to fourteen.

Amendment.

Mr. McCarthy gave notice that he will move an amendment to have clause 110 of the N. W. Territories Act struck out. This section relates to the use of either English or French in the courts.

The Delegates.

The Newfoundland delegates are here. They have had no interview with the Government yet.

Supplementary Estimates.

The supplementary estimates include \$150,000 for emigration purposes. Daly and Ross are very jubilant over this grant; also \$4,000 for the Edmonton Registry office, \$5,000 for the Court house and lockup and police accommodation at the same place; \$1,200 for the registrar's house and office at Battleford; \$6,000 for a Northwest Council Chamber; \$6,750 for Indians in the Northwest and for small items.

Railway Grants.

The following railways get 3,400 acres per mile:—Glenboro branch, Souris branch from Kenney, Campbell, Crow, Lac Seul railway from Shelly to White Mud Lake, Calgary and Edmonton Railway from Calgary to Edmonton and from Calgary to the boundary. The Galt Railway, from Lethbridge to Crow's Nest Pass, gets \$3,480.

The Northwest Bill.

When the Northwest Bill came before the House, Laurier and David advocated the granting of some measure of self government to the Territories and the latter advanced strong reasons for the same.

Mr. Blake contended that whatever funds there were to expend in the Territory ought to be submitted to Assembly and expended by the Assembly.

Mr. LaRiviere regretted that the electorate districts had not been changed so as to give the French Catholics the same representation.

Mr. McCarthy rose amid applause. He said the Government in the North West was a mere hybrid system. They should have responsible government. Clause 21 did not dispose of the dual language question. He opposed separate schools in the Territories.

Sir John said the bill was not a permanent one. The whole question of how best to govern the N.W.T. would come up again. When the population increased, the Territories would be divided into provinces, and a constitution adopted similar to other provinces.

The House then went into committee and passed the Bill. The debate was mild and short, but it is thought there is trouble ahead.

New Election.

Writes for a new election in Lincoln have been issued. The election takes place on the 23rd of May. Rykert will be a candidate again against all comers.

DUCK LAKE.

The Massey Manufacturing Co., have opened an agency here, with T. O. Davis in charge.

Our member, Mr. Mitchell is around around arranging for improvements on roads and bridges.

Reports from Snake Plains say seeding grain is finished out there, and a much larger acreage sown than ever before.

Messrs. Lumsden, W., McKenzie and other leading railway officials, are expected here on Sunday.

Mr. Hart, the genial mail driver has purchased Mr. E. Woodcock's band of cattle. Jack intends to go into the ranching business.

A man named McAuley stole a gun from Pere Fourmaud some days ago. A warrant was issued for his arrest but, up to now no trace of him has been found.

Sergt. Mountain is on the incoming stage and they say Mrs. Mountain is with him. His many friends will be glad to see him back.

Mr. Puok has rejoined the N.W.M.P.

A great many have gone to work on the railway, and in many cases taking families and even cows with them.

The new gopher poison law is just what was wanted by the settlers. It kills off the gophers, which the foxes, wolves, crows and hawks eat and they soon also die. Your correspondent is informed that hundreds of these latter are lying around the prairies where gopher poison has been used.

The South Branch raised five feet last night.

GENERAL NEWS.

TORONTO, April 26.—The labor men of the city are endeavoring to get Peter Burns, the English labor leader, to come here to take part in a demonstration on Saturday next. A cheque for \$2,000 was received yesterday from the International Builders' and Laborers' Protective Union of America to pay the strikers weekly strike wage.

SPRINGFIELD, Ohio, April 27.—John Carey, a leading undertaker, high in the order of masonry and for many years secretary of the Knights Templar, has been discovered to be a defaulter to the amount of \$14,000. Carey confessed and said his speculations extended over a term of six years. Wednesday he disappeared and on Friday his wife received a letter dated Cincinnati stating that when she received it he would be many miles away.

BUFFALO, April 28.—The propeller S. F. Hodge arrived here at 2:20 o'clock this afternoon with a cargo of 6,000 barrels of flour from Duluth, the first boat from Lake Superior this season. It is expected that some of the northern boats will make a round trip in April with loads both ways, which will add still further to the early records.

PRINCE ALBERT,

Its Resources and Special Advantages to Intending Settlers.

It is intended only in this article to present a cursory glance at the more prominent distinctive features and the numerous special advantages and attractions which the district of Saskatchewan offers to emigrants, and intending settlers, together with a short description of the town of Prince Albert as it is at present. Its beginning or the future before it will have very little space; with that we have nothing to do at present; several comprehensive pages are now in press to be issued shortly in pamphlet form, with regard to its past history, its wonderful developments and its future possibilities. The enterprise, intelligence and thrift already displayed, coupled with nature's bountiful supply of valuable resources, assures the future and should dispel all misgivings.

ITS BOUNDARIES.

The District of Saskatchewan is bounded on the east by the Nelson River, Lake Winnipeg and Manitoba; on the south by Manitoba and Assiniboia; on the west by Alberta; and on the north by Keweenaw, with an area of 114,000 square miles, the largest with the exception of Athabasca—the boundaries of which have not been definitely decided upon. Of the districts comprising the Northwest Territories, geographically it is the centre of this vast western territory, and extending as it does so many important physical features, is destined at no very remote period to surprise the world by its developments.

NATURAL PRODUCTS.

These comprise almost unlimited quantities of first-class pine, spruce and poplar timber; millions of acres of the finest, most fertile and productive soil in the world; grass in abundance, which is believed to be the most nutritious ever known. Gold is found in the main stream of the Saskatchewan, which flows through the entire centre of the district; while undeniable evidence of salt, petroleum, gypsum and other valuable products are forthcoming. Reliable proof has been obtained that all these things may be found, and there is no doubt that enterprising prospectors will be rewarded by finding many other treasures in the future. No observant person has travelled over the entire Northwest and formed any comparisons but has pronounced the Saskatchewan country, and particularly that part of it in which the settlement of Prince Albert is located, to be equal in all particulars and far superior in a great many respects to any other portion of this great country. And it remains only for us to say that farming, stock raising, etc., will not be an experiment with settlers who come here, as it is in many parts of the country. There is the most convincing proof of the fertility of the soil and the adaptability of the land to grain growing from the fact that for twenty-five years crops of all kinds of grain have been grown here and that in no year during that period has there been a failure of crop from any cause whatever. All vegetables and wild fruits such as strawberries, raspberries, cranberries, blackberries, red and black currants, gooseberries and many other fruits are found in profusion and ripen in every part of the district, and here—as in other parts of the Northwest—many varieties of wild flowers add their beauty and fragrance to the scene, throughout the entire summer. Grasshoppers and gophers are unknown pests to the agriculturist in the Saskatchewan country.

ITS CLIMATE.

The climate is much the same as in Manitoba, with this notable exception that it is only in very wet places that summer frosts occur. Winter, of course, is cold, but at the same time there is nothing to be feared from that source, as people and animals, when properly housed and cared for are just as well and feel much better during the winter months than when compelled to endure the endless rain and cloudy weather of winter time in eastern countries; this is a fact, the veracity of which no winter's experience in the Saskatchewan District will convince the most sceptical. Spring begins usually about the first or second week of April and seeding a few days later, and from that time until often far into November summer is with us; there is, however, very little excessive heat, except a few days in July and August.

ITS ADVANTAGES.

The immigrant in locating in this district will be called upon to face but very

few of the difficulties to be met with in the southern prairie country. Here he will find schools, churches, pleasant neighbors, abundance of building timber, plenty of fire wood, lots of good water to be had at his own door and in fact it will be easy for him to fancy himself in an old settled district of Eastern Canada, made so by well tilled fields, numerous herds of cattle, horses and the many substantial homes and buildings of the early settlers, for it must be remembered that—as before stated—farming in the Saskatchewan district is by no means an experiment. Much more could easily be said of the resources, etc. of the country, but a description of the main points of interest is all that is intended to come within the scope of this article.

THE TOWN.

The town of Prince Albert was founded nearly twenty-five years ago by the late Rev. Jas. Nisbett, a missionary of the Presbyterian church. With him at the time of his arrival here was the Rev. J. McKay, still living at Snake Plain, Sask., whose intimate knowledge of the country and the Indian language made him very valuable as a guide and interpreter. After some time spent in examining the surrounding country, Mr. Nisbett decided upon the River lot at present called the Mission property as the basis of his operations, and erected thereon the building now used as a bank at the corner of River and Church streets. Mr. Nisbett named the embryo town after the Queen's late husband, Prince Albert. For several years after, the principal settlement was carried on by Red River settlers, who came out in large numbers during the ten years which followed Mr. Nisbett's advent. This was the beginning of what to-day, notwithstanding its isolated position and the consequent difficulties of reaching it, is the largest and most flourishing settlement in the Northwest Territories. The town was incorporated in 1886, and the limits located from Mr. Charles Mair's property in what is called the West End to Goshen in the East inclusive, and running south from the river about one mile. But this does not include what is generally known or in reality comprises the town of Prince Albert; for starting at a point some three miles west from the Post Office the valley is built upon nearly six miles of its length, or from Emmanuel College in the west to Moore and Macdowall's steam saw mill in the east. The buildings include many fine structures which would do credit to older towns. A well organized system of municipal government exists; three public schools, with six teachers employed are maintained; Emmanuel College, an institution under the control of the Church of England, situated most charmingly near the banks of the river Saskatchewan, has the credit of being the first important institution for higher learning in this district and was founded by the late Bishop MacLean, whose memory will always be cherished by the residents of the diocese of Saskatchewan. St. Anne's convent, presided over by the Rev. Mother Collinge, has also done and is doing much to foster the good cause of education. Last year the Rev. Mother, finding their building too small for growing needs, erected a magnificent brick structure at a cost of about \$12,000, part of which in connection with the former they now occupy. A Roman Catholic separate school is also carried on.

The Nisbett Academy, built mainly through the earnest efforts of the Rev. Dr. Jardine, late Presbyterian Minister of this town, was built in the summer of 1888 and promised to be an important factor in educational matters, but unfortunately it was totally destroyed by fire during the past winter. We have reason to hope, however, that it will be rebuilt at an early date.

The Dominion Government built a Court House during 1886 for which nearly \$20,000 was expended, and in 1888 the new Police Barracks were erected at a cost of \$60,000. It is probable that a new Post Office will be built by the Government at an early date.

A very large number of substantial and in some cases elegant private residences have been built during the past two years, adding much to the beauty of the town and the comfort of the occupants.

There are two large and commodious hotels in the place, where travellers may obtain good accommodation.

INDUSTRIES ETC.

Exclusive of the accompanying list of professions and industries there are twenty-three mercantile establishments which carry stocks comprising all and everything usually found in a well stocked general store in any part of Canada. This list, although somewhat imperfect,

will convey an idea of the business transacted:—two bakeries, one barber, two hotels, one taxidermist, two drug stores, three butchers, two blacksmiths, one tailor, two photographers, one gunsmith, two jewellers, three livery stables, two breweries, four law firms, one private bank, one auctioneer, two doctors and one dentist, seven bricklayers and masons, one millinery establishment, three surveyors, four painters, five carpenter shops, several real estate agents and notaries public, one brickyard and one about to be established, two printing offices, Times and the Saskatchewan newspapers one water power grist mill. There are besides these three steam saw mills, one saw and door factory, one steam roller process grist mill. Certainly not a bad showing for a town situated as it has been 300 miles from a railway.

Government officials stationed here are: a resident judge and clerk of the court, registrar and deputy, Dominion Lands and Crown Timber agent with two assistant, sheriff and deputy, deputy inspector of weights and measures, warden of courthouse and jail, collector of customs, Dominion Government telegraph operator and postmaster.

Everything in the way of amusements is carried on. The town has its Lawn Tennis, Cricket, Base Ball and Lacrosse clubs and a dramatic club, which furnishes interesting amusement to the citizens. F. Division N.W.M.P. stationed here have recently organized a full brass band, which, with the citizen's brass band, supply excellent music.

ATTRACTIONS.

We have said nothing thus far about the beautiful scenery of this district, not by any means the least important attractive feature of it. Nature has indeed been lavish with her gifts in this respect, and equally so with regard to game. This is in very truth a sportsman's paradise. Wild fowl of all kinds abound in the lakes which dot the surface and repose in the fertile valleys here and there all through the district, and larger game may be had a few miles north and east of the town. Fish, comprising white, salmon, trout, bass and many other varieties are to be found in the larger lakes and streams. As a resort for hunting, fishing or sport of any kind Prince Albert promises to become a centre. Boating upon the river is also considerably indulged in, and will no doubt be a favorite pastime in future.

REPRESENTATIVES.

Saskatchewan has five representatives in the Northwest Legislative Assembly and one member of the Dominion House, all of whom it may be added, have won the respect and confidence of their constituents.

OUTLYING SETTLEMENTS.

Duck Lake and Carlton are important posts. The former contains two stores, one hotel, a telegraph office, a steam grist mill, post office, a Roman Catholic mission and a doctor. Here also is located the Indian agency for the district—an Indian agent and assistants in charge. At the latter place is a store and post office. Duck Lake and Carlton are surrounded by the finest of agricultural lands and plenty of wood and water. Distance from Prince Albert about forty miles.

Kinistino, a settlement some forty-five miles east of Prince Albert, is in the centre of one of the richest farming sections in the world. It contains a store and post office.

The village of Batoche is beautifully situated in the valley of the South Saskatchewan, surrounded by good land and contains two stores, Roman Catholic mission church, post office, ferry, telegraph office and several fine residences, and is distant about forty-five miles south of Prince Albert.

St. Laurent, a Roman Catholic mission, also on the South Saskatchewan, comprises a telegraph office and post office, and is about seven miles north of Batoche.

The foregoing are the most important outlying settlements, but there are many others which deserve special mention did lack of space not forbid. Among the number being Humboldt, Snake Plains, Birch Hills, Fort la Corne, Shell River, Clark's Crossing, Halero and Red Deer Hill, all of which are surrounded with good land, abundance of useful timber, good water and all the requisites necessary for successful farming.

HOW TO GET THERE.

The incoming settlers have at least the choice of three routes. By the river steamers which ply between Winnipeg and Edmonton during the season of navigation; by trail from Qu'Appelle

station, the present route of the Royal mail stage, which leave Qu'Appelle every Wednesday; or take C. P. R. trains to Regina and the Regina and Prince Albert railway to Saskatoon, from which point conveyances may be had for the remainder of the journey, a distance of 100 miles; but as the railway is being pushed forward with all possible speed towards Prince Albert, this distance will gradually decrease. The latter is the safest, least expensive and quickest route to choose in coming to Prince Albert.

If any doubt is felt as to the accuracy of these statements, there are many other intelligent and reliable sources from which the reader can procure further information. The names of many settlers in the Saskatchewan district is a sufficient guarantee of their veracity, any of whom would be glad to furnish such information. A perusal of any Northwest Territory directory would furnish names and addresses.

Coughs, Colds, Croup.

Allen's Lung Balm was introduced to the public after its merits for the positive cure of such diseases had been fully tested. It excites expectoration and causes the Lungs to throw off the phlegm or mucus; changes the secretions and purifies the blood; heals the irritated parts; gives strength to the digestive organs; brings the liver to its proper action, and imparts strength to the whole system. Such is the immediate and satisfactory effect that it is warranted to break up the most distressing cough in a few hours' time, if not of too long standing. It contains no opium in any form and is warranted to be perfectly harmless to the most delicate child. There is no real necessity for so many deaths by consumption when Allen's Lung Balm will prevent it if only taken in time. For Consumption, and all diseases that lead to it, such as Coughs, neglected Colds, Bronchitis, Asthma and all diseases of the Lungs, ALLEN'S LUNG BALM is the Great Modern Remedy. For Croup and Whooping Cough it is almost a specific. It is an old standard remedy, and sold universally at 50 cents and \$1.00 per bottle. The 25-cent bottles are put out to answer the constant call for a Good and Low-Priced COUGH CURE. If you have not tried the Balm, call for a 25-cent bottle to test it.

SCOTT'S EMULSION

DOES CURE CONSUMPTION

In its First Stages.

Palatable as Milk.

Be sure you get the genuine in Salmon color wrapper; sold by all Druggists, at 50c. and \$1.00.
SCOTT & BOWNE, Belleville.

LOCAL HAPPENINGS

In Our Midst.

Major Hoey, M. L. A., of Boucher settlement was in town Tuesday last.

The Cricket Club intend having a match between the married and single on the 24th inst.

E. J. Rankin has erected a very substantial fence around his residence on Third Street.

Grass is coming up and the hills present a beautiful appearance draped in their green mantle.

You can get your photo taken as natural as life at Gadow's gallery, and don't you forget it.

R. Shore, of Carrot River, was in town this week. He reports seedling well in advance in that district.

W. R. Fish received a large consignment of dry goods, groceries etc., for his general store this week.

Moore & Macdonald have sent a gang of men up to Sturgeon Lake to run their logs down the Shell River.

There is no place you can spend a dollar to better advantage, than at F. C. Baker's. He won't be undersold.

Yesterday was Arbor Day in Manitoba. We have not heard that our Lieutenant-Governor has proclaimed a special day as yet.

Hon. L. Clarke left on Monday for Battleford and the outlying posts of the Hudson's Bay Co., on a tour of inspection.

Five dollar suits of clothes, and \$1 overalls, are what surprises everybody. See them and you will buy them at F. C. Baker's.

Seventeen head of beef cattle were brought in from Carrot River on Saturday last and sold to Wm. Davis for 4½ cents per pound.

A party of hunters from town went out to Red Deer Hill last week and bagged eight geese, two sandhill cranes and a lot of ducks.

Inspecting Chief Factor MacFarlane took his departure from here for Cumberland, by way of the river on Wednesday morning last.

The water in the river has risen a couple of feet within the last few days. There is every prospect of a successful season's steamboating.

Moore & Macdonald's dam on the Shell River, broke away last week. This dam was built to make high water in Sturgeon Lake so as to float logs easily.

Codins, Macdonald and McPhail of the East End were the only members of the Council who appeared at the regular meeting on Monday evening last.

Jardine & Co., are removing their stock of stationery into their new store. The Saskatchewan office will be transferred to the same building in a week or so.

The Battleford Herald this week is a special double number. Its columns being devoted to the resources of, and general information relating to the Saskatchewan country.

Thos. Oram of the Queens Hotel left for the end of the track on Monday to get his spring supply of drinkables. Mr. Oram will likely go on to Winnipeg before he returns.

In another column will be seen an advertisement asking for tenders for supplies for the N.W.M.P. Forms of tenders can be had at the orderly room at the barracks.

Tenders will be received by the secretary of the Curling Club for the lease of the rink for five months. Tenders to be handed in to J. L. Johnson, secretary, by the 16th inst.

A large supply of Fresh Vegetable Seeds just arrived at T. E. Jackson's. Parties requiring Dutch Sets, Potato or Top Onions will do well to leave their orders now, so that they can be filled out of the first to arrive.

The usual spring bush fires are raging in the woods on the north side of the river. Our timber ranger should be instructed to look after the destructive fire, in the woods instead of gathering up the few cents from settlers for cordwood.

ADVICE TO MOTHERS.
Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of **MRS. WINSLOW'S SOOTHING SYRUP FOR CHILDREN TEETHING.** It will relieve the poor little sufferer immediately. Depend upon it, mothers; there is no mistake about it. It cures diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children's Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the U. S., and is for sale by all druggists throughout the world. Price 25c a bottle.

The express this week brought in an unusually large quantity of permit liquor.

Doug. Peterson, agent for Stanley's book entitled "The Dark Continent" received several copies by last mail.

The base ball club received their playing outfit by express this week and were not long in getting to practice afterwards. The club will practise on the old ground every evening. They are trying to make arrangements with the Colleton club for a match on the 24th.

The H. B. Co., sent two York boats to Cumberland on Monday. Among the passengers on board were Engineer Levy and crew for the steamer Northwest. It will be remembered the Northwest had to be pulled on to the bank of the river near Cumberland owing to the shallowness of the water.

Forest Ranger Cook was on the war-path on Monday and Tuesday, and seized a large quantity of cordwood, house timber and rails, that was taken off by our townspeople without a permit. Great indignation is expressed by the people on account of this high handed method of doing business.

Indian Agent Finlayson, of Mistawasis reserve, is in town endeavoring to make arrangements with the Sioux Indians around here to go on to a reserve which will be set apart for themselves. This is a big undertaking, as the Sioux about here have all lived near white settlements and got their living from the white people since crossing the line.

Some sneak thief went into Shannon's shoe store on Saturday night last and took out a quantity of boots, underclothing, socks, etc., amounting to about \$30. An entrance was gained by breaking a pane of glass in the front window. This is the second time within a year that this store was broken into, and about the same amount of goods taken, but the first time Mr. Shannon was lucky enough to catch the thief, who is now sporting a "wren and chain" at the barracks. It is to be hoped Mr. Shannon will be as successful this time.

We clip the following from a copy of the Manchester Evening Mail of March 24th sent us: "Young Men's Emigration Advice Society.—In connection with this branch of the Manchester Y. M. C. A. work, forty young men, forming the 114th party since the formation in 1882, sailed on Saturday last per s.s. *Sarnia*, from Liverpool for Canada. They are from Manchester, London, Salisbury, Halifax, Sunderland, Heaton, Norris, Glastonbury and other places. As usual they met at the Y.M.C.A. Rooms the day before sailing to receive instructions as to the voyage, railway journey on the other side of the Atlantic and other matters.

BOARD OF TRADE.

A meeting of the revived Board of Trade was held in the Council Chamber on Wednesday last. The main object of the meeting being to confirm the proceedings of last meeting and elect a council for the Board.

A communication was received from A. S. Stewart asking for a grant of \$25, to be used for the purpose of printing on a number of envelopes a short description of this district. The communication was favorably received and it was decided to accept Mr. Stewart's offer, if sufficient funds were on hand.

The election of officers was proceeded with, the following gentlemen securing the highest number of votes:—J. F. Betts, J. R. McPhail, T. O. Davis, L. Clarke, A. S. Stewart, J. M. Campbell, D. C. McLellan, R. B. Way, J. Knowles, C. Mair, F. C. Baker, J. D. Maveety.

After discussion on several subjects, the meeting adjourned, to meet again at the call of the president.

SCHOOL BOARD.

A regular meeting of the Board of Trustees of the Central School was held on Monday last. Present:—J. L. Johnson, chairman; Messrs. Davis, D. Gunn and Campbell.

The minutes of last regular and special meetings were read and confirmed.

A communication was received from Miss R. McGregor re remuneration for services after her regular engagement had expired, and which had been laid over from February last, was taken up.

It was moved by Mr. Davis and seconded by Mr. Gunn that Miss McGregor be paid at the rate of \$45 per month from date of her letter until 7th April. Carried.

Accounts were received from C. Mair,

rent of West End school for April, for \$15; Government Telegraph Service, telegram to Mr. Mustard, \$1 75.

On motion of Mr. Gunn seconded by Mr. Campbell the accounts were ordered to be paid.

The Board then adjourned until next regular meeting.

GENERAL NEWS.

LONDON, April 26.—Sueci completed his forty days' fast to day. He weighed 177 pounds at the beginning, and 92 at the end of the fast. His health is apparently unimpaired.

LISBON, April 26.—The King has appointed Major Serpa Pinto at one of his aides de camp. At a performance given in his honor at the Algeria Theatre last evening, the major was presented with a sword of honor.

TORONTO, April 26.—Suit has been brought against Ousman Hanlan to set aside an alleged fraudulent conveyance to his wife of land on Toronto Island on the site his hotel stands upon, with the object, it is alleged, of escaping judgment for \$180 secured against him.

LONDON April 27.—Owing to the defects which have been discovered in the British warship *Thrush* the vessel will not be ready to be put in commission for a month to come. The *Thrush's* first voyage, it is expected, will be to America and she is to be under the command of H.R.H. Prince George of Wales.

METEOROLOGICAL.

The following are the thermometer readings, as taken at Emmanuel College, for the past week:—

April	MAXIMUM	MINIMUM
" 27th	62°	36°
" 28th	72°	26°
" 29th	66°	46°
" 30th	51°	26°
May 1st	71°	29°
" 2nd	59°	35°
" 3rd	43°	28°

TENDERS.
SEALED TENDERS marked "For Mount-Ed House, Provision and Light Ship, and addressed to the Honorable Minister of Railways and Canals, Ottawa, will be received up to noon of Tuesday, 9th of June, 1900.

Tenders for the construction of the Mount-Ed House, Provision and Light Ship, and addressed to the Honorable Minister of Railways and Canals, Ottawa, will be received up to noon of Tuesday, 9th of June, 1900.

No tender will be received unless made on such printed forms.

The lowest of any tender not necessarily accepted.

Each tender must be accompanied by an accepted Canadian bank cheque for an amount equal to ten per cent of the total value of the articles tendered for, which will be forfeited if the party declines to enter into a contract when called upon to do so, or if he fails to complete the service contracted for. If the tender be not accepted the cheque will be returned.

This advertisement is not to be inserted by any newspaper without the authority of the Queen's Printer, and no claim for payment by any newspaper not having such authority will be admitted.
